

HIPERMAX

DAMPER OVERHAUL SERVICE in NORTH AMERICA

An overhaul replaces seals, gas, oil, rods and other damaged components.

The nondurable components within a damper are constantly being degraded by heat and friction. To maintain performance and safety the damper must be replaced at normal intervals.

When should I overhaul?

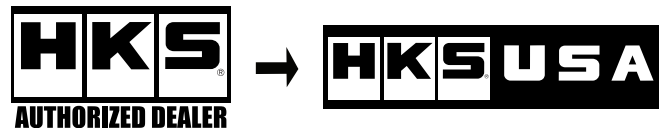

If my car is unsteady when changing lanes.
If my car nose dives when applying the brakes.
If my car's steering response is slow.
If my car makes a rattling noise.
If my car's suspension is leaking.

Step 1

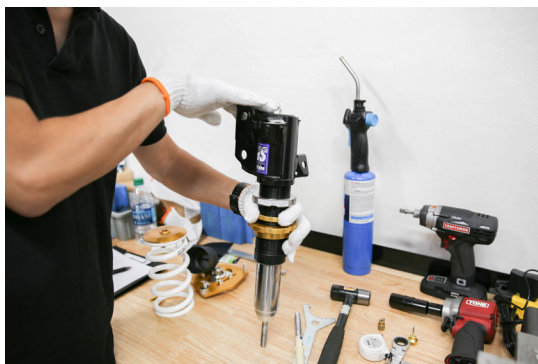

Visit or send your used coilovers to a local authorized HKS dealer. Master Pro Dealer, Pro Dealer or Master Seller.

Step 2

The customer pays for shipping and the dealer sends the old or damaged coilovers to HKS USA.

Step 3

HKS USA does the overhaul.

Step 4

HKS USA sends it back to the dealer. Return shipment cost is covered by HKS USA.

Contact an authorized HKS dealer for an overhaul. www.hks.com/distributors-dealers
Overhaul of both left and right dampers must be done together.
Overhaul not available for parts over three years old.
